

Would you trust a surgeon who doesn't know where to cut?

Then why would you let anyone dig up your lawn just trying to *find* your sewer or septic lines?

SEWER EYES takes the guess work out of identifying sewer and septic problems and their locations...*without damaging your landscaping.*

Our state-of-the-art **video inspection system** eliminates costly, haphazard digging. We look into your 2" to 6" pipes (sewer, septic, footing tiles, etc.) via video camera to locate or predict clogs, cracks and other damage.

Not only do you save money from useless digging, but with your sewer condition documented on video,

insurance companies and home buyers will have the proof in a picture.

You know what they say: "A picture is worth a thousand..."

DIAGNOSIS AND REPAIR

- **PINPOINT THE PROBLEM** before any digging occurs.
- **SAVE MONEY** by locating problems quickly and eliminating restoring landscapes.
- **RELY ON OUR EXPERTS** for diagnosis, speedy service and affordable repairs.

PREVENTATIVE

HOME SELLERS

- Protect house's value with *video proof* of a reliable and trouble-free sewer system.
- Minimize post-sale liability.

POTENTIAL HOME BUYERS

- See the inside condition of underlying pipes before making an offer.
- Avoid surprise sewer or septic trouble.

INSURANCE ADJUSTERS, REAL ESTATE AGENTS AND APPRAISERS

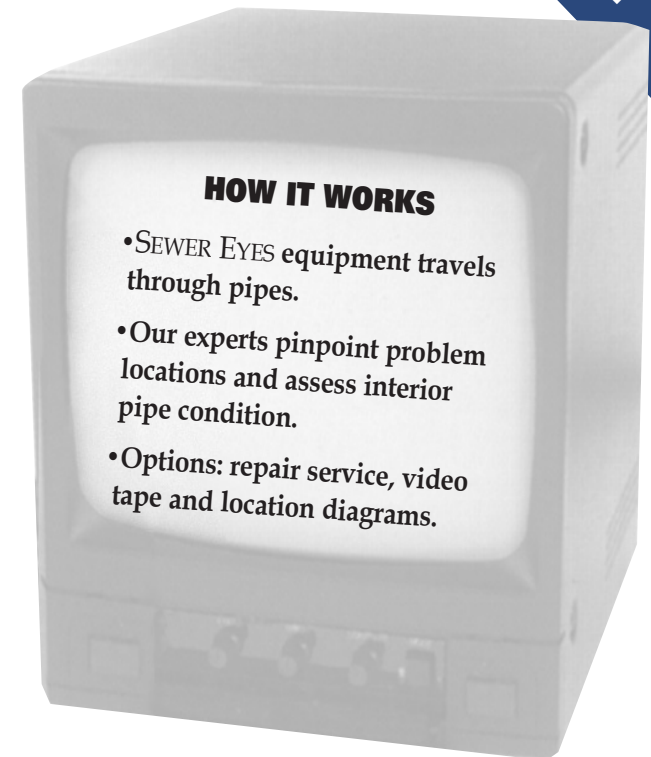

- The more you know, the better equipped you are to make professional decisions or judgements regarding a property.

EXPERTISE & QUALITY

All work done by our specially-trained and experienced team.

More than 40 years in the septic, sewer and water business serving home owners, businesses and municipalities
